

behind closed doors

“behind closed doors” is an instrumental trio from the Netherlands, Germany and Sweden. Their amalgam of guitars, bass and drums, enriched with synths and a classical string quartet, creates an unique sonic image that embraces ferocious heaviness as well as delicate tenderness.

All three members of “behind closed doors” are full time musicians striving to compose, record and perform at the highest level. Besides “behind closed doors” they have played individually with numerous bands and ensembles in various genres and toured, taught and resided as artist in residence in Europe and the United States.

"caged in helices" was recorded, mixed and mastered at Hertz Studio by the acclaimed Wieslawski brothers.

“behind closed doors” is
Christoph Teuschel (guitars),

Yuma van Eekelen (drums),

Fred Jacobsson (bass, synth)
